

## ORGANISATION DESIGN MASTERCLASS MODULE 2: DOING DESIGN

### Content Overview

Learn the 'how' of organisation design: different end-to-end design approaches, each with their pros and cons.

- ✓ Critical elements of a good design approach
- ✓ Top-down versus bottom-up approaches
- ✓ Expert-based approaches versus collaborative design processes.

### Outcomes:

- ✓ Greater understanding of end-to-end design processes and their pros and cons
- ✓ Identified gaps in own project plan / work completed to date
- ✓ Increased confidence and experience of applying an end-to-end design process
- ✓ Identified gaps in own knowledge and experience
- ✓ Next steps for developing yourself in the profession

A hands-on, one-day masterclass in which participants can work on reviewing and improving the approach for their own project with the help of our experienced faculty.

*“The one-day long workshop was very valuable because it gave an in-depth insight into practitioners’ challenges to introducing change to their organisations.”*

—  
This module is suitable for professionals who have completed the first module or have an equivalent level of experience.

EODF is the European voice shaping the strategic role of organisation design.
